PROFESSIONAL SUMMARY

Product Designer with 17 years of design experience, now focused on digital product. I run discovery and user research through field research, online surveys, data analysis and other methods, turning the findings into product and business decisions. I design information architecture, flows, Figma prototypes and responsive interfaces, and validate them in usability testing. I follow handoff and implementation through, with metrics defined to measure the outcome.

PROFESSIONAL EXPERIENCE

UX/UI Product Designer

Freelance · Jan 2025 - Present

- Run discovery and user research through online surveys, in-depth interviews, field research and competitor analysis, and synthesise the findings into product requirements and priorities.
- Design information architecture, user flows, wireframes and Figma prototypes, structuring reusable components with variants, colour and type styles and Auto Layout, and validate solutions in usability testing before delivery.
- Ship responsive mobile interfaces, follow handoff and implementation through to launch to keep the build faithful to the design.

Contracted projects at Cremore (2025 and 2026) · site in the portfolio, research internal and not shareable

- Reseller acquisition site, defined through research and tracked with metrics in Google Analytics. The outcome: 9 new resellers across 5 cities in the first 60 days, confirmed with the sales team.
- Franchise feasibility research: ran the study in the field and through an online survey with resellers and took the conclusions to the owners as input for the brand's decision on building a franchise network.
- App demand research: field research with resellers, combining structured-script interviews with an ethnographic study of their ordering routine at the point of sale, to size the appetite for an app before any product investment.
- Data analysis for new factory-outlet locations: cross-referenced sales history, traffic flow and social class by region and recommended the locations with the highest potential to the sales team in two new cities.

Product & Interior Designer

Ecoart · Jan 2008 - Jan 2025

- Led the design process end to end, from requirements gathering with the client to final delivery of custom projects.
- Turned needs into viable solutions, balancing use research, technical production constraints and an aesthetic that fit the end user.
- Presented and defended design decisions directly with clients and stakeholders throughout development.
- Coordinated in-house production, assembly and installation with cross-functional teams and suppliers, making sure what shipped matched what was designed.

EDUCATION

Bachelor's in Product Design

Universidade de Franca · Feb 2008 - Dec 2012

COURSES AND CERTIFICATIONS

Professional Certificate in UX Design

UX Design Institute and ESPM · Aug 2025 · 130h

- A 10-module programme with dual certification: Professional Certificate in UX Design (UX Design Institute) and UX Design Certificate (ESPM).
- Research: in-depth and stakeholder interviews, moderated usability testing in person and remotely, card sorting, A/B testing, competitive benchmarking and usability heuristics.
- Analysis and synthesis: data triangulation, affinity diagramming, customer journey mapping, personas and empathy maps.
- Design: information architecture, user flows, interaction design and microinteractions, design principles and patterns, mobile UX, and prototyping with documentation for development.

SKILLS

User research · Discovery · User interviews · Qualitative and quantitative research · Field research and ethnographic study · Usability testing · Information architecture · User flows · Wireframing and prototyping · UI Design · Interaction design · Design System · Responsive and mobile-first design · Product metrics and data analysis · User journey mapping · Benchmarking and competitor analysis · Design Thinking · Handoff and implementation support · Cross-functional collaboration · AI-assisted prototyping

TOOLS

Figma · Figma Make · Google Analytics · Lighthouse · Claude Code · Claude · v0 · Google Stitch · Illustrator · Photoshop · CorelDraw

LANGUAGES

Portuguese (native) · English (advanced)
